

# Aura Lunaria Pro tunable white

Low profile ceiling grid LED solution with tunable white

The Aura Lunaria Pro Tunable White (TW) is a revolutionary LED panel for tunable white applications. Adjust the colour temperature from 2700K up to 6000K to find your own personalized light setting, or change the colour temperature during the day following the natural daylight cycle.

Aura Lunaria Pro TW is perfect for the modern office, school or public space with focus on Human Centric Lighting. Fulfilling all standard requirements for offices, the panel is easily controlled through a DALI DT8 interface. Connect it to a smart office, a building management system or an easy to use touch interface. With tunable white you can adjust the light levels to your own preferences.

- Low weight
- 50,000 hours lifetime
- DALI DT8
- Suitable for computer work according to EN-12464
- Shallow height – suitable for low depth ceilings
- Efficacy >100 lm/W
- UGR <19
- Tunable white – for adjustable colour temperature.

IP40

LED

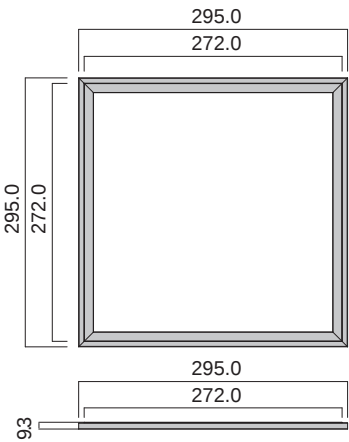

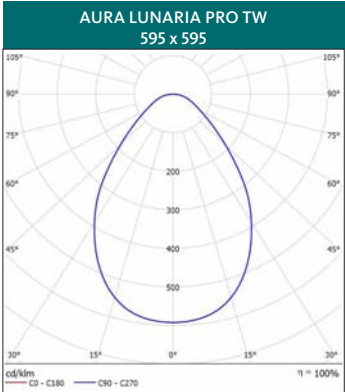

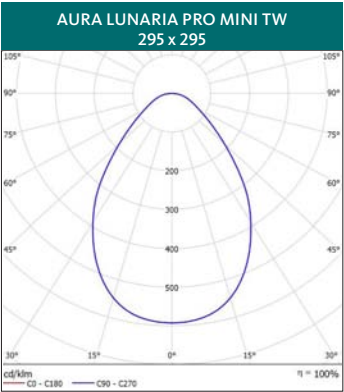

**APPLICATIONS:** Offices, schools, hospitals, commercial applications. Suitable for computer work according to EN-12464.

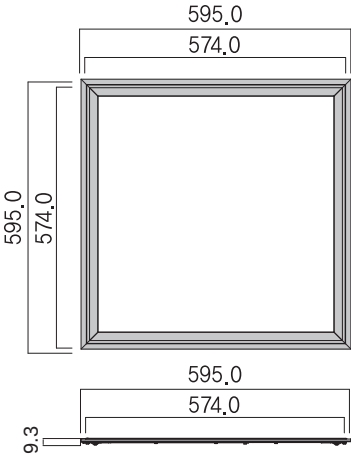

**MATERIAL:** White Ral 9010.

**INSTALLATION AND CONNECTION:** Supplied with junction box in different configurations.

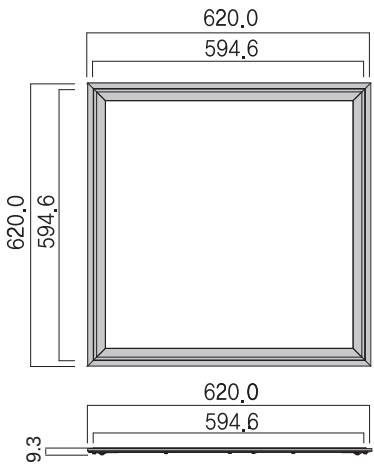

**TECHNICAL DATA:** IP40, 230-240 V AC, 50-60Hz, SDCM 3. Ambient temperature: -20°- +35°. Power factor over 0.9. CRI > 80. Lifetime 50 000 hours (L70B10 at 25°C Ta). CE, ENEC. LED panel, tunable white from 2 700-6 000 Kelvin. Controlled via DALI DT8. RG=0 according to the norm EN-62471.
